PROFESSIONAL SUMMARY

Hello and welcome to my resume. Frontend Developer with 3.7years of experience in React.js, Next.js, TypeScript, and Redux, specializing in scalable UI development, AI integrations, and performance optimization. Built enterprise-grade applications for global clients including Motherson Group, integrating AI voice interfaces (ElevenLabs, Azure Speech SDK), Okta SSO authentication, and real-time data management using RTK Query. Improved SEO rankings by 40%, reduced form creation time by 50%, and enhanced user engagement by 35% across multiple projects. Experienced in CI/CD pipelines, automated testing, and Azure cloud deployments, ensuring reliable and high-performance web applications in Agile/Scrum environments.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Material UI, Bootstrap
State Management: Redux, Context API, Redux Saga, RTK Query (TanStack Query)
AI & Voice Integration: ElevenLabs WebSocket API, Microsoft Azure Cognitive Services (Speech-to-Text)
Cloud & Deployment: Azure Static Web Apps, Azure DevOps
Authentication & Tools: Okta SSO (PKCE OAuth2) , Git, GitHub ,Mirage.js.
Testing & Deployment: Jest, React Testing Library, CI/CD Pipelines
UI/UX Design: Figma
Tools & Technologies: Agile/Scrum, Jira, API Integration
Expertise: Web Services (REST), Responsive Web Design
Currently Learning: Python, FastAPI, SQL

PROFESSIONAL EXPERIENCE

- Software Engineer at iQode Digital Solutions Pvt Ltd, Hyderabad | October 2025 – Present
- Software Developer at Syntec Solutions, Hyderabad | September 2025 – October 2025
- Software Developer at Captelex Software Technologies Pvt Ltd, Bangalore | July 2022 – July 2025
- Software Engineer Intern at Captelex Software Technologies Pvt Ltd January 2022 – June 2022

EDUCATION

S.V Degree college

Bachelor of Computer Science | June 2019 - August 2022

- Specialization: Computer Science

PROFESSIONAL WORK EXPERIENCE

iQode Digital Solutions — Client: Motherson Group
Frontend Developer (React.js, JavaScript) | November 2025 – Present
Project: TalentAI – AI-Powered Recruitment Platform
Role: Frontend Developer
Overview: Developed the frontend of an AI-powered recruitment platform for Motherson Technology Services, enabling HR teams to auto-generate job descriptions, screen and rank CVs, and conduct real-time AI-driven video interviews with voice interaction and automated candidate evaluation.
Key Technologies:

- Frontend: React.js (v18), JavaScript, TypeScript, Ant Design, Tailwind CSS
- AI & Voice: ElevenLabs WebSocket API, Microsoft Azure Cognitive Services (Speech-to-Text)
- State Management: React Context API
- Authentication: Okta SSO (PKCE OAuth2)
- Testing & Deployment: ESLint, Vite, CI/CD

Key Responsibilities:

- Integrated ElevenLabs and Azure Speech SDK for real-time AI voice interviews with English and Hindi support.
- Implemented a barge-in/interrupt system enabling candidates to speak over the AI mid-sentence.
- Developed CV Ranker and Job Fit Ranker modules with bulk uploads, AI skill extraction, and Excel export.
- Built an HR dashboard for scheduling interviews, sending invites, and reviewing candidate results.

iQode Digital Solutions — Client: Motherson Group
Frontend Developer (React.js, TypeScript) | October 2025 – Present
Project: KIP Bot – AI-Powered IP Assistant
Role: Frontend Developer
Overview: Developed the full frontend of an enterprise AI-powered chatbot for Motherson Group's Intellectual Property team, enabling patent search, IP process guidance, and admin management of training data and patent databases.
Key Technologies:

- **Frontend**: React.js (v19), TypeScript, Ant Design, Tailwind CSS
- **State Management:** Redux Toolkit, RTK Query
- **Authentication**: Okta SSO (PKCE OAuth2)
- **Animation**: Framer Motion
- **Testing & Deployment**: Jest, React Testing Library, Azure Static Web Apps, CI/CD via Azure DevOps

Key Responsibilities:

- Built the complete frontend architecture including responsive sidebar layout, routing, and animated page transitions.
- Integrated Okta SSO for secure authentication and route protection across the application.
- Implemented RTK Query for all API interactions with caching and real-time updates.
- Developed an admin panel for training data management (CRUD) and patent database operations.
- Configured CI/CD pipeline for automated deployment on Azure Static Web Apps.

Syntec Systems India Pvt Ltd
Frontend Developer (React.js, TypeScript) | September 2025 – October 2025
Project: Sureforce
Role: Frontend Developer
Overview: Worked on an insurance management dashboard for US-based third-party insurance agencies, contributing to bug fixes, UI revamping, API testing, and small-scale UI development.
Key Technologies:

- **Frontend**: React.js, TypeScript
- **State Management:** TanStack Query (React Query)
- **Tools**: GitHub, REST APIs

Key Responsibilities:

- Resolved UI bugs and conducted UI testing to ensure consistent functionality across the dashboard.
- Performed API testing to validate seamless frontend-backend integration.
- Revamped existing screens and contributed to small-scale UI development.

Captelex Software Technologies Pvt Ltd
Frontend Developer (React.js, Next.js, TypeScript) | January 2024 – June 2025
Project: Portfolio & Blog Platform
Role: Frontend Developer
Overview: Developed a portfolio and blogging platform with server-side rendering (SSR), improving SEO rankings by 40% and increasing user engagement by 30%. Optimized content caching and state management, reducing data retrieval time by 25%.
Key Technologies:

- **Frontend**: React.js, Next.js, TypeScript, Material UI
- **State Management:** Redux Saga, Context API
- **Optimization**: SSR, Lazy Loading, Image Compression
- **Testing & Deployment**: Jest, React Testing Library, CI/CD Pipelines

Key Responsibilities:

- Implemented SSR with Next.js, reducing load times by 35%.
- Created a custom blog editor, boosting content publishing speed by 40%.
- Managed state efficiently with Redux Saga, ensuring faster data retrieval.
- Enhanced asset delivery, reducing bandwidth usage by 20%.
- Configured CI/CD pipelines, automating deployments and test execution.

Captelex Software Technologies Pvt Ltd
Frontend Developer (React.js, TypeScript) | September 2022 – October 2023
Project: AI-Powered Form Builder
Role: Frontend Developer
Overview: Built an AI-powered form builder, reducing manual form creation time by 50% and improving form submission accuracy by 35%. Enhanced UI responsiveness, resulting in 45% faster user interactions.
Key Technologies:

- **Frontend:** React.js, TypeScript, Tailwind CSS.
- **State Management:** Redux Thunk, Context API.
- **AI Integration:** OpenAI API.
- **Optimization:** Virtual DOM, Debouncing.
- **Testing & Deployment:** Jest, React Testing Library, CI/CD Pipelines.

Key Responsibilities:

- Built an interactive form editor, reducing manual input effort by 50%.
- Integrated AI-powered suggestions, cutting form setup time by 45%.
- Applied Redux Thunk for managing dynamic interactions.
- Reduced initial load time through lazy loading and refined caching.

Captelex Software Technologies Pvt Ltd
Frontend Intern (React.js, TypeScript) | March 2022 – August 2022
Project: E-Commerce Platform
Role: Frontend Intern
Overview: Contributed to a scalable e-commerce platform, improving search efficiency by 40% and increasing mobile conversions by 15%. Enhanced UI performance, leading to smoother navigation and improved checkout flow.
Key Technologies:

- **Frontend**: React.js, TypeScript, Material UI
- **State Management:** Redux Saga, Context API
- **Optimization**: Lazy Loading, Code Splitting, Responsive Design
- **Testing & Deployment**: Jest, React Testing Library, CI/CD Pipelines

Key Responsibilities:

- Designed responsive UI components, enhancing engagement by 20%.
- Developed real-time product filtering, increasing search efficiency by 40%.
- Applied Redux Saga for cart and session management.
- Enhanced image processing, reducing total load time.
- Assisted in debugging and testing, decreasing UI bugs by 90%.

ADDITIONAL INFORMATION

Employee of the Month (Intern): Recognized at Captelex Software Technologies Pvt Ltd for delivering user-friendly designs, enhancing application functionality, and ensuring project deadlines were met efficiently.
Client Excellence Recognition: Acknowledged for improving platform usability, increasing user engagement by 25%, and enhancing system efficiency by 20%.
Certifications: React Developer Certification from Captelex Software Technologies Pvt Ltd.
Languages: English, Hindi, Telugu
